

Patents AWARDED

1. A System for Cleaning Blockages in Sewers (Patent Awarded)

Title: **A system for cleaning Blockages in Sewers.** Hydraulic Method of Cleaning Blockages in Sewage Manhole and Sewage Pipe Without Manual Entry into it (Sewer Cleaning)

Indian Patent No. **445985**

Awarded on **21st August 2023**

Inventor: Vinayakam Jothiprakash

Kindly contact us through mail or Phone to learn more about this patent and licensing

2. A System for Removing Floating Debris in an Open Water Channel

Title: A System for Removing Floating Debris in an Open Water Channel

South African International Publication No. **WO 2020/049583 A1**

Patent Number 2021/02147

Awarded on **31st Aug. 2022**

Inventors: Vinayakam Jothiprakash, Harphool Singh Meena and Ranu Meena

Kindly contact us through mail or Phone to learn more about this patent and licensing

3. A System for Removing Floating Debris in an Open Water Channel

Title: A System for Removing Floating Debris in an Open Water Channel

Indian Patent Number 508448

Awarded on **08 Feb. 2024**

Inventors: Vinayakam Jothiprakash, Harphool Singh Meena and Ranu Meena

Kindly contact us through mail or Phone to learn more about this patent and licensing

4. Poisonous Gas Detection and Alarming Device

Title: Poisonous Gas Detection and Alarming Device

Indian Patent Number 539174

Awarded on **24 May. 2024**

Inventors: Vinayakam Jothiprakash, Tarika Vohra

Kindly contact us through mail or Phone to learn more about this patent and licensing
